

Official marine-water network Unconnected land below 2 m Outside denominator / non-tidal water
Connected land below 2 m Other coastal-lowland land DeltaDTM clipped class 255

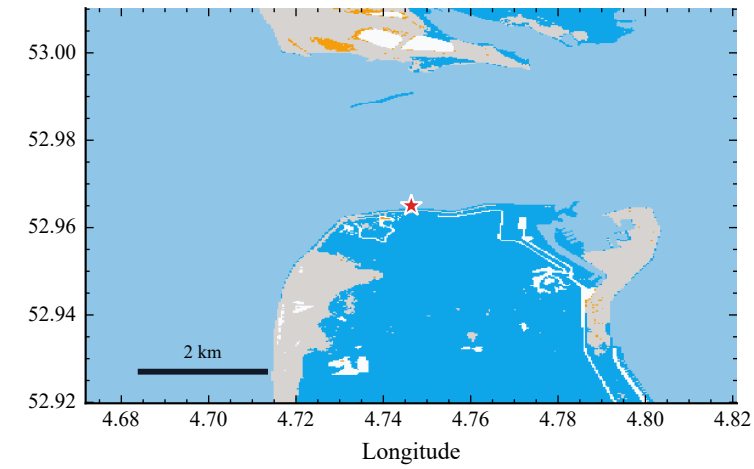

a. High water / high terrain response
Sheerness

b. High water / lower terrain response
Newport

c. Lower water / higher fraction response
Den Helder

d. Indicator values and ranks

High water / high terrain response

Rank 1 = highest screening priority

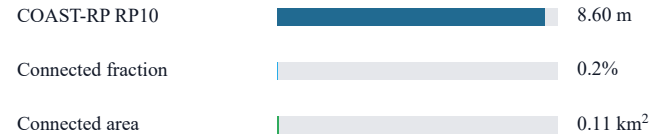

Water rank: 14/68 Connected-fraction rank: 6/68

e. Indicator values and ranks

High water / lower terrain response

Rank 1 = highest screening priority

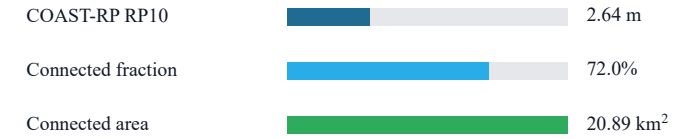

Water rank: 3/68 Connected-fraction rank: 68/68

f. Indicator values and ranks

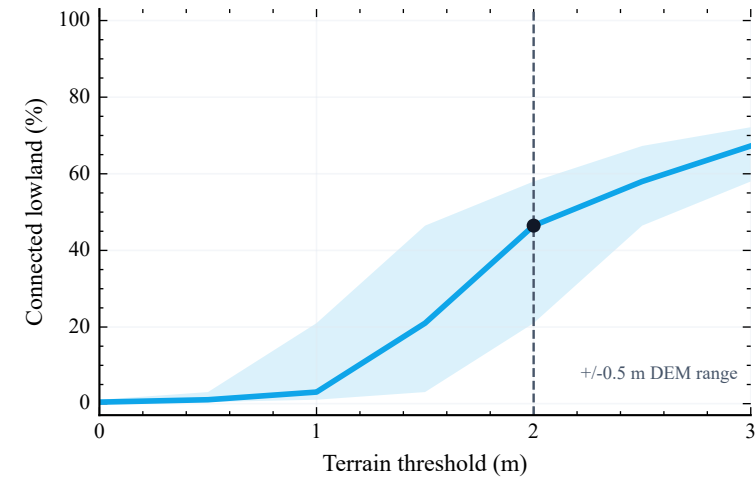

Lower water / higher fraction response

Rank 1 = highest screening priority

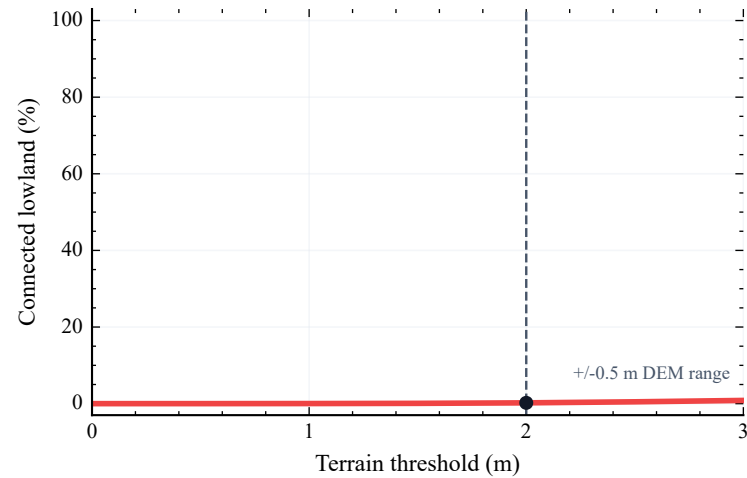

Water rank: 58/68 Connected-fraction rank: 2/68

g. Threshold response

h. Threshold response

i. Threshold response
